What are the opportunities for working jointly between our regions with EU Missions and challenge based innovation?

EU Missions

EU Missions constitute a new way to bring concrete solutions to some of our greatest societal challenges. Each of the five Missions have ambitious goals and are expected to deliver concrete results by 2030. To do so, we all need to get engaged and work together.

The five EU Missions are

Adaptation to climate change - Restore our ocean and waters
Climate neutral and smart cities - Transition towards healthy soils - Battle against cancer
